

# New Product Launch

## Prestige Orbit

Primarily designed for use in Event Driven CCTV & Lighting applications, the new Prestige Orbit External detectors are available in two versions. The Prestige Orbit QD is a Quad element detector suitable for most applications, whilst the Prestige Orbit DT uses dual technology to provide enhanced protection in particularly hostile environments. Both are purpose built outdoor motion sensors with a 30m adjustable range and can be mounted up to 6m high.

### Orbit QD

- Quad Element Pyro
- Customised Optics
- Selectable 10, 20 & 30Mtr detection
- 10-70 deg Detection angle
- 180 deg Pan & 90 deg Tilt
- 2 Silent Relays
- Mounting height up to 6Mtr's (optimum 3Mtr's)
- Digital Temperature Compensation
- Digital Microprocessor
- High Impact ABS Housing

### Orbit DT

- As QD with the addition of Microwave Detection
- Ideal for Harsh Environments

### Order Codes

Prestige Orbit QD AFS-0001

Prestige Orbit DT AFT-0001 (9.35GHz)

Prestige Orbit DT AFT-0002 (9.90GHz)

Prestige Orbit DT AFT-0003 (10.525GHz)

Prestige Orbit DT AFT-0004 (10.587GHz)

Prestige Orbit Walktester JAH-0001
